INTERVIEW SUMMARY

As follow up to the telephonic Interview of June 26, 2009, Applicant submits a written statement in accordance with M.P.E.P. 713.04 and C.F.R. 1.133(b) as follows:

Written Statement of Interview Summary

The Applicant and the Examiner discussed differences between the present claims and the prior art of record, along with possible amendments and additional language which appears

to overcome the §102 rejection (Santini). Further, the Examiner indicated that if the cantilever members may be distinguished from the stents struts or the conformational change is distinguished from the stent expansion, the Burnmeister rejection may be overcome.

On June 22, 2009, Applicant submitted an Amendment with Request for Continuing Examination which included the amendments and additional language as discussed with the Examiner.

Applicant expresses thanks to the Examiner for her time in discussing the pending application with the undersigned.

No fee is believed due with this document. However, in the event the U.S. Patent and Trademark Office determines that an extension and/or other relief is required, Applicants petition for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 18-2000, of which the undersigned is an authorized signatory.

Respectfully submitted,

J. Peter Paredes
